

SECTION C-12

WATERSHED MANAGEMENT

**PROGRAM EFFECTIVENESS ASSESSMENT
2006-07**

SECTION C-12, Watershed Management

C-12.0 WATERSHED MANAGEMENT

C-12.1 Introduction (LIP Section A-12.1)

The County coordinates regional activities in all of the watersheds. For details on the efforts in watershed management during the reporting period, please reference **Section C-12** of the Unified PEA.

C-12.2 Watershed Action Plan Modifications

The County, as Principal Permittee, led the initial development of Watershed Chapters (**DAMP Appendix D**) for watersheds within the San Diego Region during the 2002-03 reporting period. Since that time, the County has continued to coordinate and work with the cities on a watershed level in refining and improving these documents which have now evolved into "Watershed Action Plans".

During the 2006-07 reporting period, the County coordinated development of Watershed Action Plans for the watersheds within the Santa Ana Region resulting in the preparation and submittal of the **Newport Bay Watershed Action Plan**. During the 2007-08 reporting period, the County will continue to lead this effort in preparing Watershed Action Plans for the Santa Ana River, Anaheim Bay/Huntington Harbor, San Gabriel River/Coyote Creek and the Newport Coastal Streams watersheds.
